How I Build Your Website

[Start a Project](#)

1. Understand Your Needs

We start by talking about your goals, audience, and ideas. This helps me understand what you want and what the website should achieve.

2. Plan & Design

I create layouts and visuals that match your style. Together, we refine the look and feel until everything feels right.

3. Build & Test

I turn the designs into a working website. This includes coding, adding content, and making sure it works smoothly on all devices.

4. Launch & Support

Once everything is ready, we go live. I also help you get comfortable with your website and offer support if you need updates later.

[WHAT I OFFER](#)

Building Websites That Look Great & Work Smoothly

Web Development

I turn your ideas into fast, responsive, and user-friendly websites.

Clean, maintainable code

Mobile-friendly layouts

Smooth user experience

[Let's Build Your Site](#)

Custom Design

I create designs that are unique, attractive, and easy to use.

Personalized layouts for your brand

Modern, minimal style

[Schedule a Design Consultation](#)

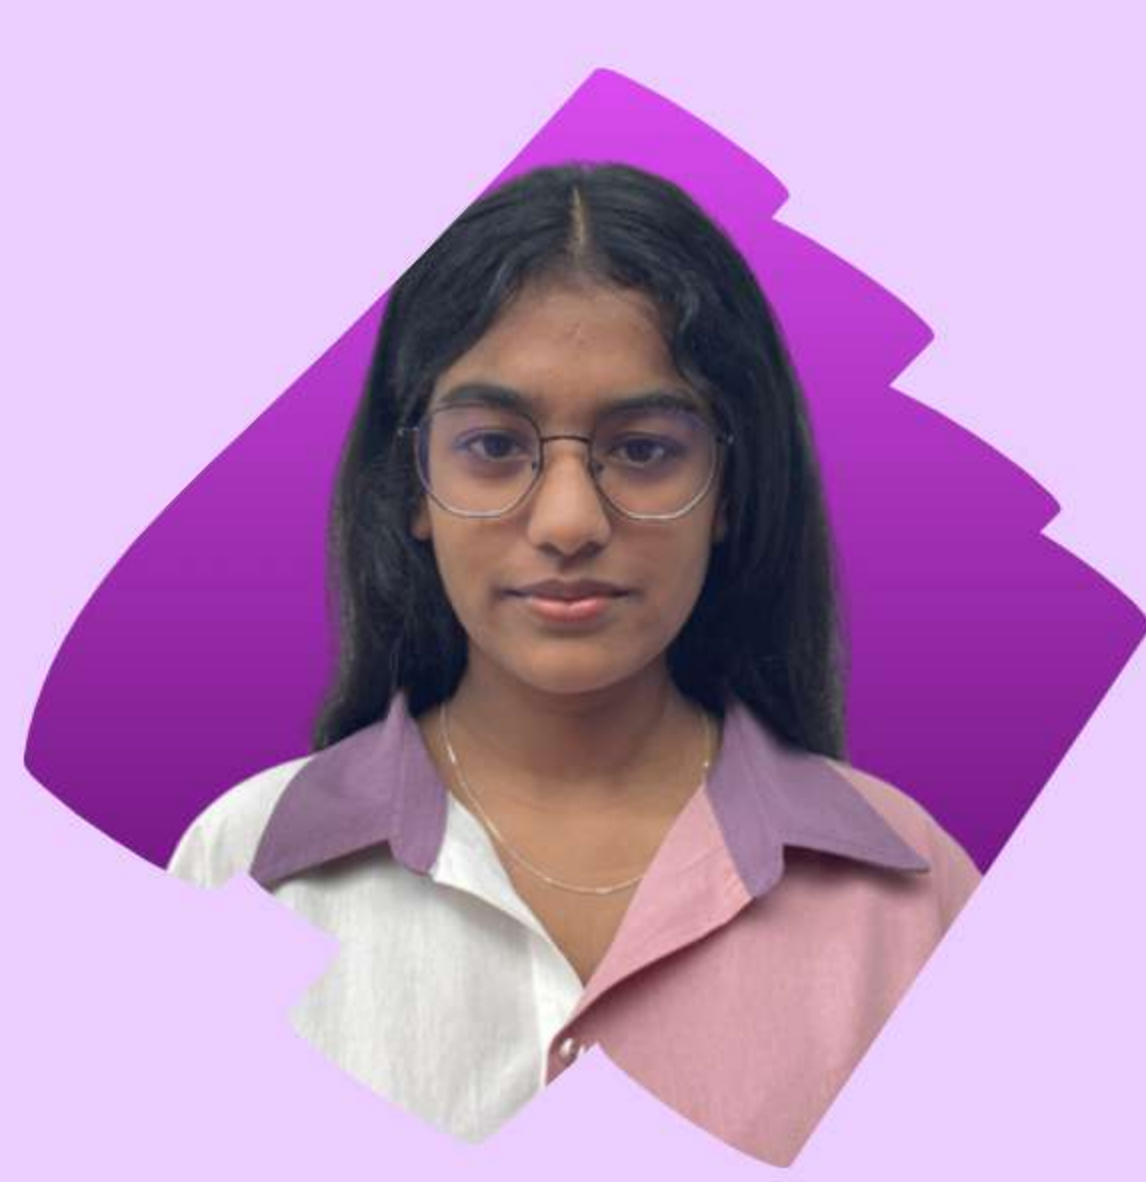

Performance & Optimization

I make sure your site loads fast and runs perfectly on any device.

Fast load times

Cross-browser compatibility

Optimized for best performance

[Get Your Site Optimized](#)[ABOUT ME](#)

Hi! I'm Sanduni Basnayaka

I'm a frontend web developer who builds clean, responsive, and user-friendly websites. I love turning ideas into websites that look great and work smoothly. My goal is to help your brand stand out online with modern design and high-performance code.

02+

Years of Experience

Creating clean, responsive websites that help clients succeed.

08+

Projects Delivered

From small business sites to personal web apps, I deliver projects that work smoothly.

88%

Client Satisfaction

I focus on results and long-term partnerships, making sure clients are happy.

My Client Stories

I love helping clients bring their ideas to life, whether they're growing startups or established businesses.

"Sanduni built a website that looks amazing and works perfectly. She listened to our ideas and turned them into reality."

R.N.Fernando
CTO, oDeX

"Working with Sanduni was seamless. The website truly reflects our brand and runs smoothly across all devices. Highly recommended!"

Nishu Silva
Founder, Tutz

ABOUT ME

Welcome to my world of web development...!

My journey in web development started during my college years, where I discovered the perfect blend of creativity and technology. I was fascinated by how design and code come together to create websites that look great and work smoothly.

Today, I focus on building clean, responsive, and user-friendly websites that help brands connect with their audience and achieve real results.

MY WORLD

When I'm Not Coding

I enjoy reading books, exploring creative ideas on Pinterest, and relaxing with K-Dramas and C-Dramas. These hobbies inspire me, spark creativity, and keep me motivated to build better websites.

EXPERIENCE

My Development Philosophy

I believe that great websites are more than just visuals they are tools that connect brands with people. I focus on creating clean, functional, and user friendly experiences while continuously learning new skills and techniques to deliver the best results.

How I Work

User-Focused

✓ I design and build websites with real users in mind, making them intuitive and easy to use.

Creative & Adaptive

✓ I combine creativity with technology, adapting solutions to each project's unique needs.

Collaborative

✓ I value clear communication and feedback, working closely with clients to bring ideas to life.

Recognition & Achievements

Awwwards

While I'm just starting my professional journey, I take pride in well-executed projects and positive client feedback, and I continue to aim for excellence in every website I build.
